

PLAN 4: Consistent wisdom (reading 1 Proverb a day all year long)

Year round (roughly 5 minutes per day)

In this plan we will read 1 chapter of the book of Proverbs each day. Proverbs is a 31 chapter book, so this works perfectly with a few of the months (the ones that are 31 days), whereas with the 30 day months and also February there may be a few days at the end where you will need to read 2 chapters. Try to start this plan on the first day of a month. Proverbs was written by the wisest man to ever live, Solomon, so the book will help you gain wisdom and understanding in terms of how to live your life and how to live it for God. This plan is a great plan to stay in the Bible every single day and the chapters will only take a few minutes and are very, very deep.
